

St. Louis West County — 2009

1. **Interstate 64 from Kingshighway to I-170.** All lanes of I-64 and several interchanges are closed for I-64 reconstruction work. Work will be around the clock, and includes work on interchanges and overpasses. Work runs from December 2008 to late 2009. Drivers are encouraged to use I-70 and I-44 as alternate routes. Construction that significantly impacts cross traffic includes the Hanley Bridge and I-64 ramps being closed December 2008 until late 2009. This project will have a major impact on drivers.
2. **Interstate 44 at Meramec River and Lewis Rd.** This bridge deck rehabilitation will require lane closures on westbound I-44 and on Lewis Road. Additionally, the ramp from Lewis to westbound I-44 will be closed. Work runs from spring 2009 to winter 2010.
3. **Interstate 64/Route 40 at Spirit of St. Louis Blvd.** This project will add entrance and exit ramps between Route 40 and Spirit of St. Louis Boulevard. The project will start in April 2009 and run until fall 2009. This should have a moderate impact on the traveling public.
4. **Route 61/67 (Lindbergh Blvd.) from Page to Manchester.** This project upgrades sidewalk ramps to meet American with Disabilities Act requirements. This project should start in spring 2009. This should have a low impact on the driving public, but may have a larger impact on bike and pedestrian travels.
5. **Route 141 from Interstate 64 to Route 61/67.** This project will install traffic cameras and sensors for Gateway Guide, and should start in fall 2009. There should be a low impact to drivers.
6. **Route 141 Outer Road south of Manchester.** Meramec Station Road will be closed south of Manchester for bridge rehabilitation between February 2009 and summer 2009. There should be a minor impact to drivers.
